**Subject:** Net metering

Re: Docket No. 2005-385- E

Global warming is serious. South Carolina needs to proceed as quickly as possible to establish a policy of net metering to encourage the use of solar cells and wind.

Our son has solar cells on his roof in New Jersey, a state that has net metering. We strongly encourage South Carolina to join the 40 states who have approved net metering.

Eleanor O. Hare  
William R. Hare, Jr.
